Southwest Basin Roundtable

Dear Committee Members;

I Brandon Johnson would like to apply to the vacant seat at large agriculture position. I have lived in Montezuma County my entire life. I grew up in Dolores being on a large sheep farm on Summit Ridge and now have married into the cattle business. I'm currently the manager of Montezuma Valley Irrigation Company in Cortez. I believe that the water we have is essential to our community in order to keep agriculture and farming in our area.

I have been involved and served on various committees. Currently a Board member on the Montezuma County Hospital District, a board member on Ditch and Reservoir Company Alliance (DARCA) Chairman of the Towaoc-Highline OM & R Committee. Served as the Chairman of the Local Emergency Planning Committee, seven years on the Cortez Parks and Rec Advisory Board, seven years on the Cortez Library Advisory Board, I'm also a retired from the Cortez Volunteer Fire Department.

Thank you for your time and your consideration as you choose the next representative for the at-large agriculture seat.

Sincerely,

*Brandon Johnson
General Manager*
