Southwest Basin Roundtable
Ed Tolen, etolen@laplawd.org
Laura Spann, lauras@swwcd.org

January 7, 2022

To Whom It May Concern:

I am asking for your support and consideration to be elected to the position of At Large Member of the Southwest Basin Roundtable.

I am a fifth generation Montezuma County and State of Colorado resident with my roots going back to 1898. I am the fifth generation to own or operate our family farm in Cortez where we raise grass and grass-alfalfa hay along with pasture. We also started raising buffalo in 2012.

I am a small business owner, operating a residential construction company since 1999. My business and construction background gives me a good understanding of water projects that may come before the Southwest Basin Roundtable for consideration.

I understand the importance of water to not only our area of Colorado but the entire Colorado River Basin. As we move into the future we need to protect water rights along with making wise decisions on conservation and beneficial water projects.

Please feel free to contact me with any questions.

Sincerely,

A handwritten signature in black ink that reads "D E Wilkin".

Danny Wilkin
